Our products...

Gourmet Coffee

We have 21 different coffees and customers can select between whole bean, ground, regular or decaffeinated. The price of our café style gourmet coffee works out to .44¢ per cup ~ a nice cost savings for your customers when compared for the \$2.00 or more they would pay at a coffee shop.

Gourmet Spice Sets

We offer 11 exceptional gourmet spice sets that are sure to please any cook. From our Wild Wings to our Glorious Garlic to our Rustic Rubs sets... your next fundraiser will be a hit with any seasoned or budding chef!

Gourmet Teas

The popularity of tea just keeps growing and growing and growing! We're pleased to offer 36 popular varieties of teas. Our teas are different... these are top of the market seasonal teas from the world's top suppliers. Our teabags don't hide low quality tea and are blended for flavor... not cup color.

We use premium, ethically produced tea. In many cases, this tea is better than some of the loose teas already on the market. Our tea is packaged in foil-lined bags with zip tops to ensure freshness. Each bag contains 40 x 1-cup teabags. Our boxed sets contain 25 teabags.
